Key Questions

What are the negative and positive aspects of using technology?

What are safe and what are risky choices online?

What are the risks of sharing images without permission? What types of images should we not post online?

How can your online actions affect us?

What are the dangers of talking to strangers online?

How do you get help if you are worried?

Key Content

There are many positive aspects of using **technology** but also some negative aspects and potential dangers. You should follow the golden rules for staying **safe online** as taught by your teachers and parents.

Online bullying is wrong and can be very hurtful and upsetting to the victim.

You should not **share images** without **permission** and only share appropriate images.

Be careful when making friends online with people you do not know. They may not be who they say they are.

If you are worried about anything you see or experience online, speak to a **trusted adult**.
