

"Calling all future David Attenboroughs!"

Mini Beast Explorer home work

Task: Become a mini beast expert by investigating a bug of your choice! Create a non-fiction page, poster, diagram or mini booklet to share with your friends.

What you could include:

- Investigate your bug - choose a minibeast (e.g. ladybird, worm, spider, stick-insect, cricket etc) and find out some interesting facts.
- Take photographs - Look in your garden or local park and take a picture of your bug in its natural habitat.
- Draw and label a picture - sketch your mini beast and label its body parts.
- Key facts - write some fun facts, such as:
 - What does it eat?
 - Where does it live?
 - How does it move?
 - Any special features
- Fun Fact Box - Add a surprising fact to amaze your friends!

If you are feeling creative, use drawings, cut-out pictures or even make a lift-the-flap booklet. We looking forward to sharing these as a class on Monday 13th April.
